

Dua Old Age Caring Institution: Expert Surgery Care Home for Seniors

Providing specialized surgical recovery and comprehensive post-operative care for elderly patients in a safe, nurturing environment.

Why Specialized Surgery Care Matters for Seniors

Surgery represents only half the journey for elderly patients. The recovery phase is where significant risks emerge— infections, falls, medication complications, and post-operative setbacks can derail healing.

Senior citizens often manage multiple chronic conditions simultaneously, including diabetes, hypertension, and cardiac concerns. These require meticulous coordination during both pre-operative preparation and post-surgical recovery.

Dua Old Age Caring Institution bridges the critical gap between hospital discharge and complete recovery, offering round-the-clock nursing supervision, immediate doctor access, and integrated physiotherapy support tailored for elderly patients.

Comprehensive Pre & Post Surgery Care at Dua

Pre-Operative Preparation

Stabilizing chronic conditions, optimizing nutrition levels, gentle strengthening exercises, and anxiety reduction through counselling.

Post-Operative Care

Advanced pain management, sterile wound care, mobility assistance, precise medication administration, and vigilant complication monitoring.

Family Integration

Continuous family education programmes ensure seamless home transition, reducing hospital readmissions and promoting long-term wellness.

Dua's Unique Care Model & Facilities

Strategic Location

Situated in Sector 63, Noida, with proximity to premier Delhi NCR hospitals, ensuring rapid patient transfer and seamless coordination with surgical teams.

Expert Medical Team

Round-the-clock trained caretakers, experienced on-site nursing staff, doctors available on call, and certified physiotherapists integrated into daily care routines.

Senior-Friendly Environment

Purpose-designed spaces with fall-prevention measures, nutritious therapeutic meals, emotional support systems, and dignity-centred care protocols.

Trust Dua for Safe, Compassionate Surgical Recovery

Proven Track Record

Serving thousands of senior citizens with personalized, medically supervised care since 2018, with consistently positive recovery outcomes.

Holistic Approach

Combining rigorous medical vigilance with emotional support, dignity preservation, and comfort-focused care throughout the healing journey.

Your Healing Partner

Dua Old Age Caring Institution stands beside you and your loved ones, providing expert care that extends far beyond hospital walls.
