Patient experiences that speak volumes

“The difference... was incredible, it was like being 15 years old once again. The Doctor explained the process before the surgery, and after the surgery, she also went by my hospital room to show me pictures from the procedure and to explain the recovery process. I am extremely grateful for her care... Thank you Dr. Razdan for giving me such huge improvement in my quality of life.”

★★★★★ – **Angel Gonzalez**

Highlighting Dr. Razdan's renowned compassionate bedside manner and total dedication to patient confidence.
